Author and filmmaker Dave Wann champions a “New Suburbanism,” a creative, incremental approach to reinventing the existing suburban landscape, one neighborhood at a time. Wann has been exploring and promoting opportunities for making our way of life less destructive, more affordable, and more satisfying. He has examined the way we eat, where we choose to live, what policies we support, what we manufacture and buy, how we take care of our health, and what we do in our spare time. His goal is to create a future scenario in which Americans can experience twice the satisfaction for half the resources.
